**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a customer of Sonic Fiber (<http://sonic.net>) which provides Gigabit speeds over fiber to residents of SF. No other Internet provider was able to do this. AT&T has the fiber but they never offered these speeds at something we could afford. Since moving to Sonic, our service has been reliable and affordable. That's something we couldn't say when using the much slower AT&T DSL service which was also expensive and unreliable. Please maintain open access to fiber for inner city Internet providers who sell innovative and cost-effective solutions that AT&T and the other large telcos don't.
